

QINSy

USER DAY

31 October 2011

QINSy (Quality Integrated Navigation System) hydrographic management software is used by more than 500 different customers all over the world. Over 4500 licenses are operational and used in all types of applications in maritime and mobile laser mapping applications.

This year user day will share the latest development in QINSy. From the QPS itself will bring you the news close exclusively

+ QINSy and Fledermaus

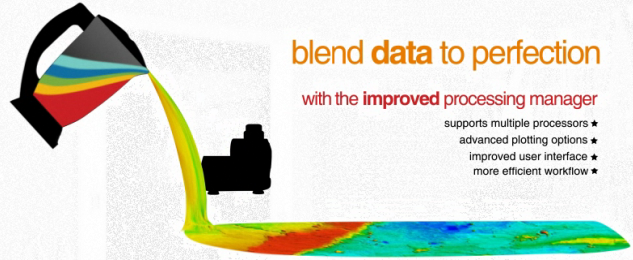

+ Webinar

+ QINSy towards GIS

SAFA Geoscience Malaysia

(Reg.No.488637-A)

blend data to perfection

with the improved processing manager
